- A Entertain guests with ease in this circular seating floorplan and optional articulating table.
- B The extra wide port side gate is fitted with two ladders that stow away below the deck for easy access into and out of the water.
- C The V270 offers unique wraparound bow seating with intricate upholstery design and stitching details. There is ample storage space under the seating.
- D The center console features two Raymarine® touchscreen displays, tilt steering and lighted stainless steel cupholders. Illuminated push-button switches allow for easy control of the accessories.
- E The integrated refrigerator keeps food and beverages cold all day long. Accompanying sink makes food prep and clean up easy.
- F The marine grade head includes a freshwater built-in faucet and shower combo. Comes standard with a 3-gallon water heater along with ample storage and cupholders for tucking away supplies.
- G Use the electric tilt button to change the direction of the dual helm seats to either face forward or to join in the conversation behind you.

- A** Sleek, stylish dual loungers offer a luxurious space to relax and stretch out. An optional changing room tucks under the portside bow lounge, while leaving ample room for storing gear. Shown in French Gray standard upholstery.
- B** Boost your driving comfort by upgrading to the UltraLux high back helm seat. Shown in Desert Camel upholstery.
- C** The Sunliner does not disappoint when it comes to the ergonomics and details of its furniture. A wealth of seating, cupholders and storage options are available. Shown in Almond pillowtop upholstery.
- D** The Sunliner offers pillowtop or quilted standard furniture options. Shown in Desert Camel pillowtop upholstery.
- E** Watersports enthusiasts can rest on the rear-facing lounge while stowing all their gear in the roomy storage underneath. Shown in Desert Camel pillowtop upholstery.
- F** The generous bow lounge seating offers enough space for your entire crew to relax. Lots of storage under each bench seat stows beach towels, life jackets, food and more. Shown in French Gray pillowtop upholstery.
- G** The popular dual helm seat floorplan is great for the captain and co-pilot. The additional helm seat is versatile, whether you are relaxing, entertaining or acting as watersports spotter. Shown in Desert Camel standard upholstery.

- A The bow lounge is perfect for leaning back and enjoying the ride. Equipped with cupholders for you and a friend. Shown in Almond upholstery.
- B The Cruiser helm is roomy with controls in easy reach. Cruiser comes standard with analog tachometer, trim and fuel gauges. Shown with an optional UltraLux helm chair in French Gray upholstery.
- C Two bow loungers are perfect for relaxing and enjoying the view. Shown in Almond upholstery.
- D The furniture detail not only looks good, but is comfortable too. Bow lounge shown in French Gray upholstery.
- E The optional extended swim platform adds space to the back of the boat, making it the perfect place to hang out and swim. The reversible backrest allows rear or forward-facing seating. Shown in French Gray upholstery.
- F Update your Harris by adding an optional pop-up changing room that is thoughtfully designed and conveniently stows away under the portside lounge.
- G The optional flip flop seat on the Cruiser LX allows for a seat in front or back as needed, with additional storage underneath. Shown in French Gray upholstery.
- H The Cruiser LX bow lounge is the ideal place for spending your afternoon. Shown in French Gray upholstery.
- I Fish seats are perfect for reeling in the big one on a cool summer morning. Shown in Desert Camel upholstery.

# PERFORMANCE PACKAGES

Harris performance packages are all-inclusive with reinforced nose cones, underside aluminum skin, full-length keels, lowered center tubes and lifting strakes to create the best on-water performance.

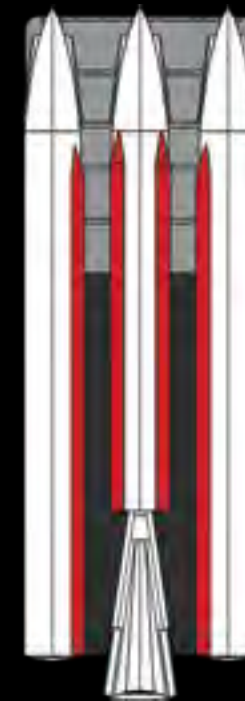

### SALTWATER PACKAGE

Harris offers a saltwater package to equip your vessel for use in a coastal region. All Harris helm seats are built for a saltwater environment, but the Saltwater Package adds four sacrificial zinc anodes that are mounted below the water line to help protect your pontoon from the effects of saltwater.

### OPEN WATER ENHANCEMENTS

Available on two-tube and three-tube platforms, Harris offers 27" diameter tubes that are designed for rough water conditions. Touting structural reinforcements and greater elevation above the waterline, the 27" diameter tubes also offer increased person capacity.

PERFORMANCE

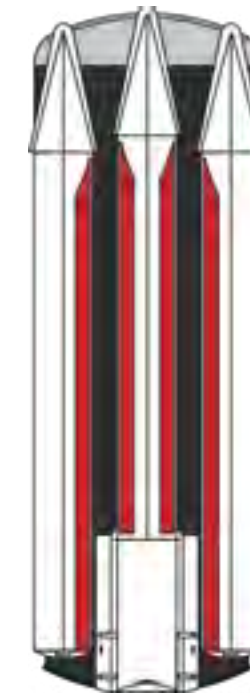

### PERFORMANCE PACKAGE LEVEL 1

#### BENEFITS

Creates more stability for a smoother ride and increases performance capability.

#### HIGHLIGHTS

Adds a partial 25" diameter center tube along with an aluminum underskin to reduce drag from water resistance against the exposed crossmembers for better performance and fuel economy. The lifting strakes and full-length keels complete the package for quick planing and a smooth ride. Fuel capacity is 28 gallons.

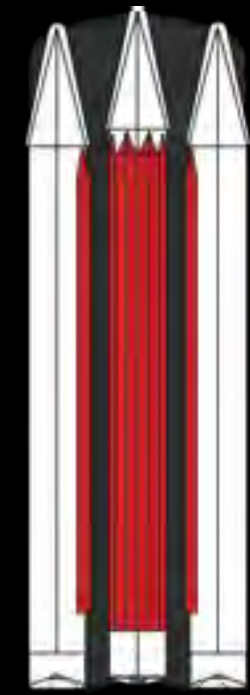

### PERFORMANCE PACKAGE LEVELS 2 & 2.5

#### BENEFITS

The Performance Package Level 2 adds increased buoyancy to the Level 1 package which boosts performance, allows for greater control at the helm while providing an overall smoother ride at any speed. A ski tow bar and in-floor storage is included with this option on select models.

#### HIGHLIGHTS

The center tube extends all the way to the motor pod to add more strength and increased horsepower capacity for quicker time to plane and higher speeds. Performance Package Level 2 increases fuel capacity to 37 gallons with standard 25" diameter tubes or select Performance Package Level 2.5 to increase fuel capacity to 63 gallons with 27" diameter tubes.

### TWIN ENGINE PLATFORM LEVEL 3

#### BENEFITS

Rated for up to 800 horsepower, the highly developed twin engine platform adds maneuverability, faster hole shot, and higher top end speeds. Depending on which model you add the TE platform to, you can reach speeds of over 60 miles per hour.

#### HIGHLIGHTS

The performance gains from the TE platform come from a unique hull design that further mimics a v-hull's design. The platform features a single 93-gallon fuel cell integrated into the center tube to ensure optimal weight distribution. Finesse into tight dock slips with ease or maintain your position regardless of the current with Joystick Piloting and the GPS-based digital anchoring and WayPoint auto heading system that are only available on the TE platform.

# A HIGHER STANDARD

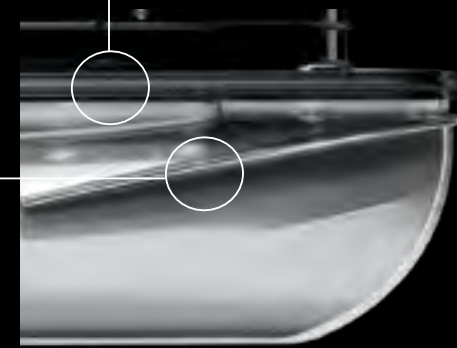

For over 60 years, we've created first-class, luxurious pontoons. And while we take pride in our work, we refuse to give in to complacency. By crafting new models with upgraded technology, more plush amenities and greater horsepower, we're working hard to build a better boat for you. Feel the difference for yourself.

## INDUSTRY-LEADING CONSTRUCTION PRACTICES

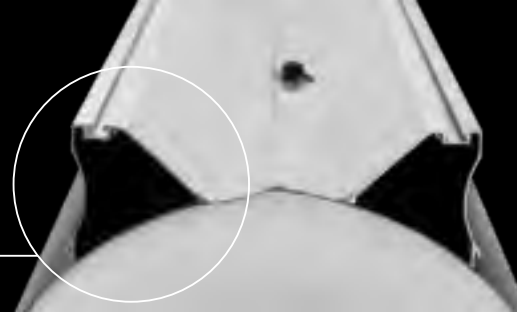

### Protective Heavy-duty Rubrail\* PATENTED

The patented 3" deep heavy-duty rubrail along the deck's perimeter is supported by thick crossmembers rather than the deck for added impact resistance.

### Solid Two-Piece Dolphin Nose Cone\* PATENTED

Invented in the Harris factory in 1959, the patented dolphin nose cone allows the pontoon to slice through water with minimal spray and unmatched precision. The two-piece construction ensures long-lasting durability and confident handling with no sharp edges or exposed welds.

### Total Torsion Reduction System PATENTED

The continuous M-Bracket transfers stress away from seams during high-performance maneuvering. In rough water and during sharp turns, the M-Bracket diminishes torque and twist, ensuring a confident and stable ride. Unlike most competitors, Harris M-Brackets are not segmented, but instead run the full length of the tube.

### Full-Length Gate Stops PATENTED

Harris uses full-length gate stops that are tested to withstand up to 400 pounds of static load at any point and location. This not only enhances safety by supporting the weight of objects or occupants when the gate is closed, but also bolsters the integrity of the fencing for years of use.

### Four-Step Water Prevention System

Harris achieves second-to-none water-intrusion resistance—which maximizes the overall life of the pontoon flooring and decking—with these four steps:

- 1 Butyl rubber tape between crossmembers and deck seals deck seams from water.
- 2 Urethane sealant between deck seams blocks water intrusion.\*
- 3 Interlocking tongue-and-groove\* deck construction provides a solid seal that holds up over time.
- 4 Additional urethane sealant along top seams and screw caps blocks potential water penetration under flooring.

\*Not available on Cruiser and Sunliner.

## TRANSFERABLE WARRANTIES

### BOW-TO-STERN WARRANTY

Harris ensures complete coverage for five years, including all materials and workmanship. The engine is covered by the manufacturer's warranty. In the event of a warranty claim, your Harris dealer will assist you.

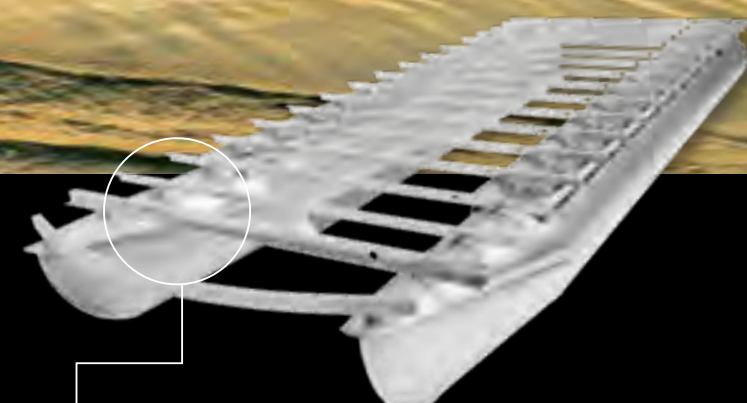

Cruiser model features may vary.

### LIMITED LIFETIME STRUCTURE WARRANTY

We're so confident in the quality of Harris pontoons that each owner receives a Limited Lifetime Structure Warranty, covering the pontoon tubes, crossmembers, decking, motor mount, fence rail, and other structural pieces responsible for keeping you out on the water.

Standard exclusions may apply.

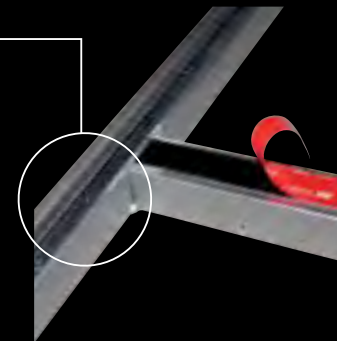

### Innovative Crossmember Infrastructure

Forming the foundation of the boat, strategic crossmember placement in a Harris pontoon adds strength where the most stress occurs, while reducing overall weight. Unlike the competition, Harris crossmembers span the entire deck width, safeguarding it so it doesn't sag over time.

### Rattle-Free Fence

To ensure the best possible experience out on the water, Harris lines its fence rails with foam tape to cushion the panel inside the rail frame. This keeps the panel from rattling, which means a quieter ride out on the water.

## PATENTED HEAD COMPARTMENT

The V270 features a completely integrated, patented marine head with a full pump-out toilet, sink and shower all conveniently recessed into the center tube in front of the helm. The dedicated compartment has a door closure for complete privacy. The boater with a large party on board or unpredictable young children will appreciate the convenience of this revolutionary design – far superior to a portable toilet and temporary curtain rigging.

## INNOVATION AWARD

The NMMA Innovation Award honors manufacturers and suppliers who bring to market outstanding new and innovative products for the boating industry.

## 16 CONSECUTIVE CUSTOMER SATISFACTION AWARDS

Harris has been a recipient of the Customer Satisfaction Award every year since the program began independent and comprehensive consumer surveys in 2002.

ROD HOLDERS

**EVO TOWER**

The EVO Tower is the new power-folding, watersports-ready tower. Conveniently lower and raise with a simple push of a button. An extended bimini provides plenty of coverage from the summer sun. Consider adding the JL Audio® tower can speakers to complement the JL Diamond or Platinum sound system. Available on Solstice, Grand Mariner and Crowne models.
